**SAVING WATER
STOPPING LEAKS**

****Update** Phase Two - Water Main renewal scheme, Top End to Church End**

Dear Customer,

With phase one near to completion, we will soon be ready to start work on phase two (Top End to Church End, Renhold). As you are aware, we were due to complete phase one (Wilden Road) on the 17th March, this has now been brought forward to 10th March. This means we will be able to re-open Wilden Road a week early.

How might the work affect you?

Phase two is now programmed to start on Monday 13th March 2023 at the junction of Wood Lane and Top End, Renhold. There will be traffic management in place to enable this work and provide a safe working environment not only for our work force but also for members of the public.

Phase 2 - Top End to Church End will consist of 2-way traffic lights from 13th to 31st March 2023 then revert to a full road closure from 3rd April to the 2nd June 2023.

Phase 3 – Junction of **Wilden Rd** to the **All-Saints Church** on **Church End** will consist of a full road closure from 5th June to the 6th October 2023.

The road closure elements of the scheme will require a 'hard closure' meaning there will be no through passage. Access to properties within the closures will be maintained at all times from one direction. We will be utilising an open cut trench method to lay the new water main. The work will require planned interruptions to the water supply. Written notification will be sent to the effected properties giving a minimum of 48 hours prior notice of the water supply interruption. Working hours will be from 0800-1700hrs Monday to Friday with additional Saturday working when required. This may be adjusted to accommodate operational challenges if required.

Due to the nature of the work some slight disruption and disturbance will be inevitable however every effort will be made to minimise inconvenience. If you find yourself unable to obtain assistance locally or are aware of any customer that may need special consideration or have any specific medical requirements that will be affected by this work or any interruption to the water supply i.e., Renal Dialysis patients, please contact our 24-hour **Contact Centre on 08457 145 145.**

Yours sincerely,

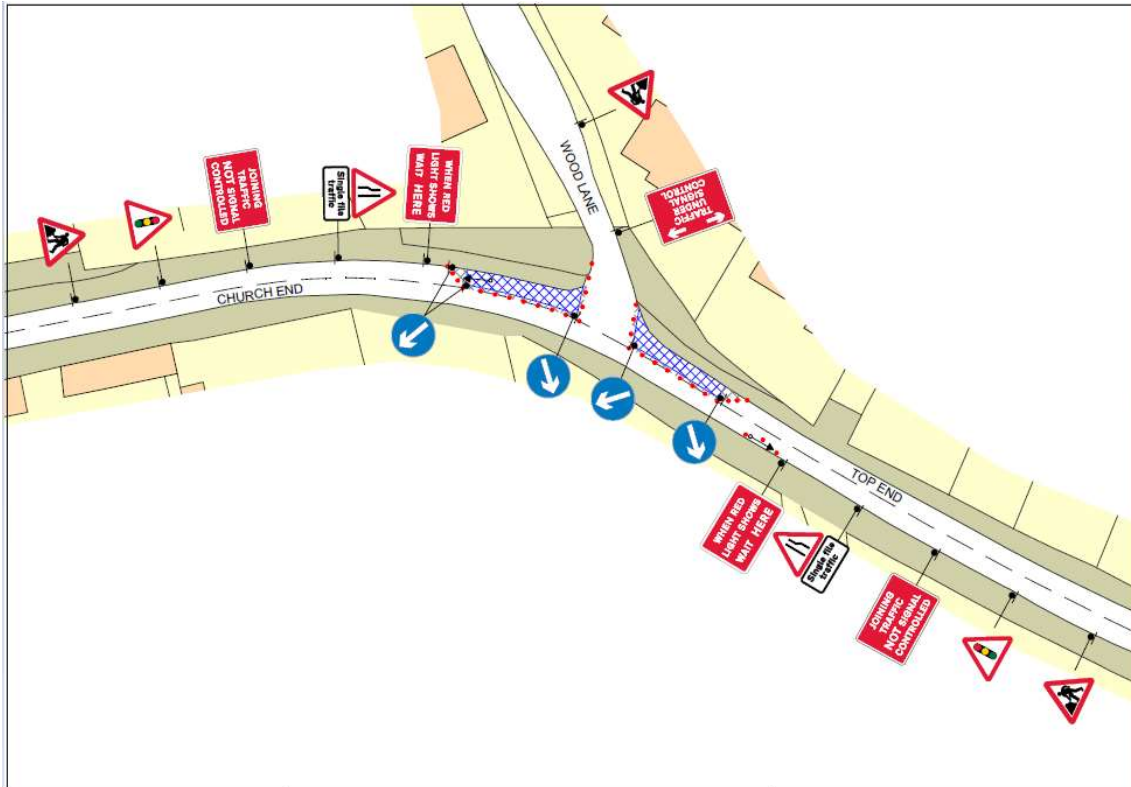

Nathan Saunderson
